RUSHVILLE, IND. TUESDAY EVENING, JUNE 20, 1905.

IT IS WELL UNDER WAY

Practically Assured That
Rushville Will Have
a Chautauqua.

Rev. Harmon and Supt. Headlee
are Now Selling Tickets—
The Course.

The Summer Chautauqua which is
proposed to give in Rushville in
August in connection with the County
Teachers' Institute, is an entertain-
ment and school lasting ten days. It
is proposed to secure just as good
talent as in the celebrated New York
Chautauqua course.

The plan for Rushville is a ten days'
course to be opened Saturday evening,
August 12th, with one of the finest
free concerts possible.

A fine lecture or concert will be
given each afternoon or evening. It
is the purpose to make the entertain-
ment from beginning to end of the
highest and most select class.

These entertainments have been
given in all parts of the country and
have proved most popular and success-
ful. There has been one at Rich-
mond, and one at Columbus. Green-
field has just arranged for the course
this year.

The business men, professional men,
the ministers, and other representa-
tive citizens should give the Chautau-
qua movement now started, and which
it is thought will be a go, their heart-
iest support. In fact each and every
citizen of Rushville and Rush county
should make it his business to attend.
Rushville has never before had a
Chautauqua, and every effort should
be made to secure this one. It will
not only be a series of meetings not
only very interesting and entertain-
ing, but highly instructive.

Rev. H. H. Harmon, of Indianapolis,
is back of the entertainment. He is
a man of refinement and education and
his proposition to the Rushville people
are fair and liberal. He asks no bonus
of the citizens. He offers to arrange
the course with the assistance and
suggestions of the Rushville people.

Assisting Rev. Harmon is County
Superintendent Headlee, who has
thrown his whole heart into the move-
ment. Rev. Harmon and Supt. Head-
lee were out this morning selling
tickets and met with good success.
They say that the prospects for the
Chautauqua are very encouraging.

Rev. Harmon will range the course
and he has virtually secured the
services of the Chicago Lyceum Ladies'
Quartet, the Morphet and Stevenson
Company entertainers; Ross Crane,
cartoonist, humorist and clay modeler;
Robert Parker Miles, of New York
City, lecturer and author; the Chicago
Glee Club, Herbert Leon Cole,
humorist; L. B. Wickersham, lecturer;
Ferguson's Colored Concert company,
numbering eight persons, and a picto-
rial representation of Hiawatha by the
Ertz-Bowden company. The latter
number has been given in Pittsburg,
New York and all of the larger cities
and its reputation is of the very best.

Rev. Harmon thinks that he will be
able to secure Lou J. Beauchamp, the
laughing philosopher. In addition to
these Dr. Green, who will have charge
of the teachers' institute will deliver
one or two popular lectures.

The meetings will be held at the city
park which will be entirely fenced in
and which will be brilliantly illumi-
nated by electric lights. A large
tent, capable of seating 1800 people
will be erected and it is in this that
the meetings will be held. Tickets are
now being sold at \$1.50 each. These
tickets will admit the holder to all of
the meetings.

Mrs. J. E. Fish, of Indianapolis
has come for a three or four weeks'
visit with her parents, Dr. and Mrs.
W. H. Smith and other relatives in this
city.

Walter E. Smith was in Indian-
apolis on business Monday.

Mrs. Margaret Morton, who has
been attending Indiana State Normal
College at Terre Haute, returned home
this evening.

FOUR-LEGGED CHICKEN

Greensburg to the Front With
Another Curiosity—Fate of
This Variety of Chickens

A peculiar freak in the animal na-
ture has just been discovered at Greens-
burg which compares favorably with
the two-headed calf exhibited at the
county fair in this city a few years
ago.

This peculiar animal which is the
object of so much curiosity is a chicken
with four perfectly formed legs.
When standing still the chicken re-
sembles a feathered dog, all four of the
feet touching the ground. However,
when it walks it only uses two of the
legs the other two dangling along
behind.

The little creature is perfectly
formed in all other particulars and
bids fair to outlive any of its contem-
poraries who will doubtless fall heir
to the hatchet block before many moons
have passed.

The proud possessor of this little
chick is a Mr. Miller, who will doubt-
less endeavor to raise others of similar
form that he may more profitably start
a boardinghouse with chicken legs as
the principal item on the bill of fare.

OVERLOOKED A VERY BIG HAUL

Burglars Had an Opportunity of
Making a Strike, But
Failed.

A special to the New Castle Courier
from Spiceland says: The burglars
who visited this place and Mays Sta-
tion, six miles south, Thursday and
Friday night, had the opportunity of
making a pretty good strike in the
Henry store at Mays, but failed to do
so, probably because of disappointment
at finding nothing more than they did
in the cash drawer. Upon closing up
for the night Friday evening, Mr.
Henry put three \$10 bills in a ledger,
instead of in the cash drawer, and to
this fact he may attribute the posses-
sion of the \$30. The burglars picked
up the book and threw it clear across
the room, but the bank certificates re-
mained hidden securely among the
leaves of the ledger and were found
after the robbery was discovered just
where they had been placed. It is not
thought by anyone here that the in-
vestigation will amount to anything,
although for a time there were hopes
that the authorities would be able to
apprehend the burglars. Some people
have connected the two burglaries
with the murderers of little May Hill
at Shelbyville, last week, the robbers
working at Greensburg and New Cas-
tle and for whom the authorities
throughout the State have been search-
ing for several days. Whether their
deductions are correct or not remains
to be seen, but it seems hardly prob-
able that the same gang committed the
murder and the burglaries also, but it
would be possible for such a thing to
occur.

The class of '05 of the Rushville
high school is to be commended for
its taste in selecting as its gift to the
school, the beautiful series of pictures
of "The Holy Grail." The pictures
are copies from the noted frieze in
the Boston Public Library and, framed
in architectural style, present a very
fine appearance. This gift will be
displayed for a few days in the show
window at Geo. C. Wyatt's where it
is placed for the accommodation of the
patrons and friends of the school
who will desire to see this splendid
piece of art. Another gift is in pro-
cess of preparation and will be present-
ed to the school next September
when appropriate presentation exer-
cises will be held in the assembly
hall at the high school building. The
school and the public have been highly
pleased with the fine spirit of the class
and wish that each may be as dignified
and as successful as they have proven
themselves to be during their senior
year in school. A majority of the
class have planned to go to college and
we predict and wish for them success
in all of their endeavors.

A SUSPECT IS ARRESTED

Wiley Winton Held Pending
Investigation of Shelby-
ville Murder.

Man Left Shelbyville on Day
of Murder—Coroner's In-
quest Secret.

A man by the name of Wiley Winton
was arrested in Indianapolis Monday
morning who is supposed to know
something concerning the murder of
May Hill, at Shelbyville. The Indian-
apolis Sentinel has the following con-
cerning him:

"It is believed that Wiley Winton,
who was arrested by Detectives Ger-
ber and Trimpe and is being held under
a loitering charge, may know
something regarding the death of little
May Hill, who died Friday at her
home in Shelbyville from the effects
of a murderous assault committed on
her several days ago.

"According to the story told the de-
tectives by Winton, he has been work-
ing at Shelbyville and left that city
the day the little girl was so brutally
beaten. He denies all knowledge of
the affair.

"Winton has been arrested here sev-
eral times on larceny charges. His
Bertillon photograph was made this
morning and he will be held pending
an investigation." This same man
was arrested at Fairland on the day of
the tragedy, but was ordered turned
loose by Sheriff Newton, of Shelby
county, who found nothing of a sus-
picious nature about him. However,
the Indianapolis officers think differ-
ently.

The people of Shelbyville do not give
any credit to the report and do not
think that Winton is guilty. The
opinion is still prevalent that the deed
was committed by home talent, but
nevertheless the officers are doing the
wise thing by running down every
possible clew.

Other than this there have been no
developments in the case and nothing
of an alarming nature has occurred.
The officers still continue the search
and are doing all in their power to
catch the guilty party.

The coroner's inquest was conducted
throughout the afternoon yesterday.
Nothing new was learned that tends to
throw any light on the subject. The
investigation continued today and
it is not probable that the coroner
will give his opinion for several days.

HORSE FELL DEAD FROM FRIGHT

Automobile, Said to be From
This City, Held Responsible
For the Accident.

It develops that the dead horse seen
lying at the side of the road near
Greensburg Sunday afternoon by
Rushville people returning from that
city, was frightened to death by an
automobile, said to have come from
this city.

The Greensburg Review in speaking
of the accident says: "A valuable
horse belonging to James Buck, resid-
ing near Kingston, dropped dead
from fright caused by a passing au-
tomobile Sunday afternoon. The animal
was being driven at the time by Mr.
Buck when an automobile said to be
from Rushville, the owner of whom
has not yet been found, passed and
the animal was greatly frightened.

However, it went past without any-
thing more serious than shying to the
side of the road, and Mr. Buck
thought nothing more of it until the
animal suddenly and without warning
dropped to the road dead. A veterinary
was called and pronounced its death
due to failure of the heart, caused by
being badly frightened."

OPPOSES WHINING

Senator Beveridge Gives Advice
to Young Men in His
New Book.

A new book entitled, "The Young
Man and the World," by Senator Al-
bert J. Beveridge, will be published
next fall by Appleton & Co., New
York. It will contain a series of ar-
ticles the Senator contributed some
time ago to an Eastern paper, the
theme being talks and advice to young
men. He will add some articles that
have not been published.

The book is written in the vigorous,
forceful style of the Senator. To the
first article the Senator has appended
the following postscript:

"To the young man: When you read
this do not get to pitying yourself.
That is fatal. Do not get the notion
that the world is not giving you your
just dues. If you have such an idea
thrust it instantly from you. If the
world has downed you, up and at it
again. If a second time it knocks you
out, still up and at it again. And
keep smiling. Never whine—you de-
serve defeat if you do that. Be a
'thoroughbred,' as the expression of
the hour has it. After you conquer
the world you will find that the old
pirate has a kindly and even loving
heart."

CREDITORS STILL REFUSE TO SIGN

The Arlington Bank Affairs
are Yet Far From
Being Settled.

The settlement by the trustees of
the defunct Arlington bank with the
depositors still hangs fire. Certain
depositors refuse absolutely to sign the
paper, releasing Messrs. Goodrich
and Jones from criminal prosecution,
and the bank's attorneys will not allow
the money to be paid out until each
and every depositor has signed the
agreement, releasing the bankers from
prosecution and acknowledging the
receipt of their money. The paper,
however, is still being circulated and
names are continually being added to
it. The bankers' attorneys state that
those depositors who refuse to sign the
release must be content with the re-
mainder, in getting only a part of the
money. Mr. Jones, so his attorneys
state, has succeeded in raising all of
his share of the money intended to
cover the deficit with the exception of
about \$200.

On the other hand it is gleaned from
good authority that a note given by
Mr. Jones for \$1250, has, it is said
not been honored. This, it is said, places
Mr. Jones in a hard position, making
it necessary that he raise more money.
A majority of the creditors are hope-
ful of some kind of a settlement soon.

GOOD ATTENDANCE AT THE ROLL CALL

Ivy lodge No. 27 Knights of Pythias
of this city held its annual roll call
meeting last night. The meeting
was attended by one hundred and ten
of the members. Fifteen answered to
their names by letter. These letters
were read and proved very interesting.
Eight visitors were present.

Ivy lodge is in a healthy condition
in number of members, two hundred
and fifty being enrolled. It was im-
possible, however, for many to be present.
Col. W. L. Heiskel, of Indianapolis,
Past Supreme Representative, delivered
a fine address to the lodge last
night, appealing to their sense of frat-
ernalism and giving a stirring ac-
count of the work of the K. of P.
order. Col. Heiskel's address lasted for
about an hour. He was introduced
by Congressman Watson, who is him-
self a Past Supreme Representative.
Following the speaking refreshments,
consisting of ice cream and cake were
served. Punch was served in the
hall.

THERE IS VERY LITTLE DOING

Diplomacy Moving Slowly in
the Great Peace
Game.

Washington Receives Messages
of Gratification From Both
Tokio and St. Petersburg.

Washington, June 20.—Practically
no new developments are observable
today in the negotiations for peace be-
tween Russia and Japan. President
Roosevelt for a day or two has been
deeply engrossed in other matters, and
while he has not for a moment lost
sight of the arrangements for bring-
ing together the far Eastern belliger-
ents, he has realized fully that the
next move in the great game of di-
plomacy now being played was with
the contending nations themselves.
That move is the selection of envoys
to represent them at the Washington
conferences.

While the same reserve that hith-
erto has characterized the personal ex-
changes which have taken place was
manifested about yesterday's inter-
views of Ambassador Cassini and
Minister Takahira with the president,
it is known that they were not of
great importance. Each of the diplo-
matists presented to the president of-
ficial advice from his government ex-
pressive of the satisfaction felt at
both St. Petersburg and Tokio over
the selection of Washington as the
seat of the peace conferences. The
president had already been advised
by Ambassador Meyer at St. Peters-
burg and Minister Griscome at Tokio
of the cordial feeling felt toward
Washington by the Russian and Jap-
anese governments. The personal as-
surances of that feeling conveyed to
him by the representatives of both
powers served simply to accentuate
the official advice received from this
government's officials. Whether the
conference will actually sit in Wash-
ington or not has not been determined
of course, as that is a detail which
will be left to the envoys themselves
by their respective governments. It
is said that no decision will be re-
ached on that point until the conferees
meet here and organize. If the weath-
er in Washington at that time should
be unfavorable to continued sittings
in this city, it will be within the au-
thority of the plenipotentiaries to ad-
journ to some other city.

During the past few days the presi-
dent has received as many as a hun-
dred letters suggesting various cities
in the country as desirable places for
holding conferences. It can be said
that the president will not permit him-
self to be drawn into the discussion
of this subject, and the government
will not attempt to interfere in any
way with the choice of the conferees
on a place of holding their confer-
ences. It is regarded as probable that
this city will be at least the scene of
the beginning and the ending of the
conference, although the intervening
sessions may be held elsewhere. It
will be known in diplomatic history,
therefore, as already stated, as the
Washington conference, and the con-
vention, if one be formulated, will be
the treaty of Washington.

As has been reiterated in these dis-
patches, Japan will not ask for an
armistice, insisting that the initiative
must come from Russia. The optimis-
tic reports of the last few days re-
ceived in St. Petersburg from the front
have greatly raised the hopes of the
Russians that a land victory is near,
and the war party is opposed to send-
ing a request for an armistice at this
time. Japan is not at all desirous of
a temporary cessation of hostilities,
for between now and the beginning of
the rainy season in August, Oyama
is ordered to accomplish great achieve-
ments in Manchuria. However, after
the plenipotentiaries have been ap-
pointed the informal discussion of an
armistice will be resumed, and in case
the president takes the initiative in
suggesting a limited truce, both bel-
ligerents will give the matter serious
consideration.

The eleven-months-old daughter
of Mr. and Mrs. Will Nicholson, of
West Ninth street, is dangerously ill
with brain fever.

This morning in Mayor Hall's court,
Thomas Seals was fined \$1 and costs,
amounting in all to \$9.45, for provoke
upon John Stevens. The trouble arose
over moving a house on Perkins street
belonging to Arvel Herkless.

ARE THEY SAFE?

Railroaders Say That Fast
Trains do Not Increase
Accidents.

The putting on of fast trains by the
Vanderbilt and Pennsylvania lines is a
matter of much comment and the
question is asked, "Are these high
speeds safe?" In order to maintain
the high speed the signals must be in
order, the track walker must be in
duty with exemplary care and dili-
gence and the roadbed must be in the
best condition laid with heavy rails
and amply cross-tied. And the equip-
ment itself must be as nearly perfect
as human skill and intelligence can
make it.

The limit on American tracks, which
are not nearly so rigid and solid as the
permanent ways in England, is nar-
rower than that on English roads, but
if the Atlantic City trains may be
handled with great ease at sixty miles
an hour actual running time, why is
it too much to expect that a well-or-
dered railroad train may not be moved
over a stretch of a thousand or more
miles at less than sixty-one miles an
hour?

MAKING HIS OWN INVESTIGATION

Former Secretary, Gates Sexton,
Going Over the Books of
Equitable Association.

Former Secretary Gates Sexton of
the defunct Equitable Building Loan,
Fund and Savings Association, has
been given the books of the associa-
tion so that he might go over them
and prepare his statement and defense.

Mr. Sexton is now going over the
books, a task that will take him sev-
eral weeks to accomplish. Recently
Mr. Sexton was granted permission to
examine the books, by the court, and
after Mr. Guthrie's report was re-
ceived and the books returned to this
city, they were turned over to him.

Mr. Sexton's friends believe that he
can and that he will show what became
of the company's funds and that he
will be able to clear himself of the
charges against him. A prominent at-
torney here, who, unfortunately will
be unable to defend Mr. Sexton, is
said to have remarked that he, him-
self, could show that the Equitable
losses were entirely due to bad loans.

EXERCISES AT ORPHANS' HOME

The sixteenth annual commencement
exercises at the Indiana Soldiers and
Sailors' Orphans' Home, near Knights-
town, are being held this week. This
is the event of the year at that insti-
tution, as it becomes an occasion of
an annual gathering and reunion of
the alumni and friends of the Home,
who come by the hundreds to partici-
pate in the exercises.

The exercises began Sunday with an
address at 10 o'clock in the morning
by Lieutenant-Governor Hugh T. Mil-
ler at Lincoln Memorial chapel. Mr.
Miller gave the members of the class
a practical talk, admonishing them to
set for themselves high ideals and
become good citizens. He declared
that in this way they could repay the
debt they owed to the great State that
had been responsible for bringing
them into young manhood and young
womanhood.

Commencement proper will begin
tomorrow on which day there will be
exercises by the under classes of the
school as well as the seniors, and a
recital by the music pupils. Thursday
the graduating exercises will be held,
and there will be an alumni business
meeting, a base ball game, two band
concerts and an exhibit by the cooking
class and a school entertainment,
"Tom Thumb's Wedding." The
alumni banquet, Thursday night, will
end the exercises.

THE FARMERS HAVE TROUBLES

For the Next Two or Three
Weeks They Will be
Pushed.

The Clover Harvest Now on, the
Wheat Must be Cut, and the
Corn Cultivated.

The farmers will be a very busy set
of people for the next two or three
weeks. The right kind of help is
hard to get, and as a consequence there
is bound to be a grand rush all along
the line.

Usually the farmer who has forgot-
ten to mend his canvass, to oil his
machine, to give needed repairs, is
the farmer who gets into the greatest
rush when the golden grain is ripened
for the shock. No wonder the work
crowds him. Two or three trips to
town, one or two days lost in getting
the rust off and in trying to make the
old canvass do another year is enough
to make any man rush when his wheat
harvesting should be going on. Some-
times a trip to town is necessary be-
cause the oil has been forgotten, or
the buying of the twine has been neg-
lected. Wheat harvest is not such a
task when the machinery, twine and
oil have been made ready at odd hours,
so that the first day's harvesting will
at least be as satisfactory as the suc-
ceeding days.

Careless work in shocking wheat is
the rule. Usually harvest hands rush
into a wheat section because of high
wages and expect to return to their
homes again in a few days. Little do
they care for the character of the work
they do in the harvest field. A shock
with too many bundles in one side or
twisted in the center is almost sure to
twist and fall should rainy weather
come before threshing begins. If these
shockings are given a definite plan for
shocking they will set up shocks that
will shed rain much better than the
haphazard way.

If six bundles are placed in a row,
the center bundle almost straight and
the others facing them, then two
blaced on each side of these and heads
well pressed together the shock will
support one or two cap bundles with-
out twisting or falling. Odd bundles
may be placed on the side of these
when the occasion requires it. The
man running the binder can do much
toward assisting the shocker in getting
even, well-balanced shocks by getting
his bundles in even rows. Large
bunches of bundles here and a small
number in other places makes bad
shocking.

Less wheat is left in the field than
was left when the cradle or old reapers
were used. The binder does excellent
work, picking up and saving the straw;
still several bushels of wheat are left
in the field. The exercise in gathering
the grain, together with the young,
tender pasturage, makes the stubble-
field valuable for hog pasture or for
sheep. The sheep delight in running
through the stubble, nipping the
clover blossoms, the tender briar and
the rag weed.

The excellent gains made by the
stock hogs that are getting but a small
amount of corn is sufficient to con-
vince the most skeptical that it pays
to make arrangements for pasturing
the wheat stubble.

Where light grain feeding is prac-
ticed, feed at night. This includes
the animals to use the early dawn and
the evening twilight for gathering in
the field. When more frequent feed-
ing is desired, give the ration at noon,
when the animals are shedding. The
feed, fresh water and cool shade should
not be too far from the pasture land.
Have them as near together as possi-
ble. If a mud bath is provided, it
should be kept clean. Throw fresh
dirt into a wallow, or make a new
one every few days. A filthy wallow
under the trough by the well is not
only a nuisance, but is very unsanitary.

J. M. Gwinn made a business trip
to Indianapolis today.

Mrs. Frances Havens, Mrs. Mary
Denning, Mrs. Martha Cook and
others will leave tomorrow for Spie-
land for a short stay at the sanitarium.

RUSHVILLE, IND., JUNE 20, 1905.

The term "Equitable" is having a hard time these days. The word itself, as everybody knows, stands for equity or natural justice, but it hardly seems to live up to its meaning when applied in certain ways. The Equitable insurance company scandal, of New York, is nation wide. The Equitable Building and Loan Association, of Rushville, is sadly in the hole and now the receiver of the Equitable Insurance company of Indiana, has sued that company for \$25,000 and alleges fraud and conspiracy. What's in a name, anyway?—Connorsville News.

The Congressional inspection party, headed by Secretary Taft, and to which Congressman Watson had an invitation, has been described as a Congressional junketing party. The observations that will be made by the inspection party will form the basis for legislation to be enacted next winter, consequently the trip will be one of great significance to the Philippines and to the United States, as it will give our legislative body a firsthand knowledge of the conditions that they have to deal with. The trip will be an entirely business proposition, and the erroneous idea that it is to be a mere pleasure jaunt ought to be eradicated from the public mind. A long trip like this will be anything but a pleasure trip.

English will be the language of the Russo-Japanese treaty of 1905 at Washington. It is the language of the country in which the compact will be framed. Likewise it is the language of the country which is immediately responsible for the peace. It is getting more and more to be the language of business and political intercourse all over the world. More persons speak it than speak the tongue of any other civilized nation. There are 130,000,000 of these people, almost two-thirds of whom are in the United States. When Germany, England and the United States in 1889, settled the issues leading up to the Samoan dispute in the treaty of Berlin, they used English. In English, too, most of the dealings between the fighting men on both sides have been carried on in the Russo-Japanese war, from the surrender of Port Arthur to the interview between Togo and Rojostevsky, after the annihilation of the fleet of the latter. Masters of this tongue are always selected by Japan and Russia, as well as all the other nations, for representatives at Washington. The world will acclaim the American capital as the proper place in which to conduct the peace negotiations, and this will suggest the tongue in which they are to be carried on. The Russo-Japanese treaty of 1905 will be a striking tribute to the United States' leadership in civilization and in the statesmanship which brings things to pass, and it will give a world vogue to the United States language in great transactions between nations.

LANDIS' LAURELS

With Poetic License a Hoosier Bard
 Creates New Figure.

Indianapolis, June 20.—Congressman Charles Berry Landis of the Ninth district was here today calling on friends. He said that he is spending the summer on a farm he has purchased near Delphi. His sunburned face and healthful appearance indicate that he is spending a lot of time in the open. Apropos of his venture as a farmer, James B. Elmore, famed as the Bard of the Alamo, has just written a poem dedicated to the farmer of Delphi, as he terms Landis. The following verse, the last in the poem, shows the tenor of the contribution:

"How sweet the dream that Jacob had
 Whose ladder reached the sky;
 You ought to see the farmer lad
 Each round and round go by.
 Great pumpkins of enormous size
 Will crown his sweating brow;
 The bugs and worms and ants look
 Wise
 When Charley goes to plow.

The bard's suggestion that Landis' brow will be crowned with enormous pumpkins may not strike the Congressman's lieutenants as the proper headgear for their favorite, but it is said that Elmore is very much satisfied with his effort.

Chairman Metzger of the Republican city committee has appointed the members of the board of primary election commissioners who will have charge of the primary June 30, when the municipal ticket will be nominated. The personnel is favorable to the nomination of Frank B. Stalnaker for mayor. Chairman Metzger, however, declared that he selected men that he knows will give all the candidates a square deal. The commissioners make up the ticket and canvass the election returns. Stalnaker's name will be at the head. It is said that he filed his notice of candidacy ahead of Charles A. Bookwalter, his opponent, and accordingly he is entitled to first place. It is conceded that first place on the ticket is generally worth several hundred votes. Stalnaker is making inroads on the negro vote, which it was supposed Bookwalter had cinched. Rev. L. M. Hagood, a colored Methodist presiding elder, has called on the negroes to stand for Stalnaker. He declared that Bookwalter as mayor catered to the vicious element of the whites and blacks and that the better element of the negro race should vote for Stalnaker. The latter's managers claim that the church-going negroes are for him and that the crap-shooting and cheap-sport contingent of the negroes are for Bookwalter. The latter's supporters are confident that a majority of the negroes will vote for him.

The two words "Gut Hell" adorn hundreds of windows in business houses and residences. They are a token of welcome to the incoming members of the German turner societies, who will be here this week for the North American gymnastic festival which promises to be an historic event of the kind. It would not be surprising if some records are smashed when the German athletes meet on the field at the state fair grounds the latter part of the week. The fatherland has sent a picked team of nine men to contest with the best German athletes of this country. They are being feted here by the German brotherhood, but tomorrow they will go into camp and prepare for the tests of strength. Thousands of crimson and white flags adorn the downtown streets and are waving a welcome to the incoming delegations. The city has raised \$25,000 for the entertainment of the visitors.

The board of trade last night accepted a proposition from the Improved Order Knights of Pythias to dispose of its property at Maryland street and Capitol avenue for \$50,000, and decided to lease the Pyle house corner, Ohio and Meridian streets, for ninety-nine years and erect a fine \$300,000 office building. The board has had the Pyle house site under consideration for some time. The new building will mark one of the greatest improvements in the business district.

The Mayflower's New Job.
 Washington, June 20.—Orders have been given by the navy department to place the cruiser Mayflower in commission by Aug. 1 after certain repairs are made, so that she may be available for use in the entertainment of the peace envoys of Russia and Japan. The Mayflower probably will be used also for the entertaining of Prince Louis of Battenberg, who will bring a British fleet to the United States in October, as it is now contemplated to keep the Mayflower permanently in commission.

Made Counterfeits in Prison.
 Binghamton, N. Y., June 20.—Louis Julian, an Italian convict in Auburn prison, has been convicted in the United States district court in this city of the crime of making counterfeit money in Auburn prison. Over a year ago the prison authorities found counterfeit coins in the prison and finally found the molds and other paraphernalia for making them in Julian's possession.

Boodling School Directors.
 Pottsville, Pa., June 20.—David Fleist, Jacob Noll, Jr., and Joseph Blersten, three Shenandoah school directors, indicted for bribery, pleaded guilty. Sentence was postponed until Saturday, as several others accused of bribery by the tax-payers' association are to be placed on trial this week, and if convicted all will be sentenced together.

Civic Association Protests.
 Chicago, June 20.—The Civic Federation of Chicago at its biennial meeting adopted a special report made by the executive committee advising against municipal ownership. The report adopted commits the organization against either operation or ownership of public utilities by the city, the reason given being that the city's operation of Chicago's waterworks system has not been successful enough to warrant a belief that the city could successfully operate a streetcar system or other public utilities.

A Searching Investigation.
 New York, June 20.—A new and important investigation of the affairs of the Equitable Life Assurance Society is to be begun at once. Paul Morton, the newly elected chairman of the board of directors, wants to know exactly how things are with the society, and has commissioned chartered accountants to examine every detail of the work, investments and relations of the society.

War Party Still in Business.
 St. Petersburg, June 20.—The war party has by no means surrendered. On the contrary, backed by the military element, it is making a concerted effort to dissuade the emperor from

concluding peace. Even with the two armies already clinching, members of the war party are filling St. Petersburg and Peterhof with optimistic views, and General Linovitch and his lieutenants are reinforcing their arguments with roseate reports of the strategic situation. Many Russian correspondents at the front, evidently inspired from St. Petersburg, are flooding their papers with dispatches in the same strain.

HE'S HAD ENOUGH

It is Said That Engineer Wallace Is Done With Panama.

Colon, June 20.—It was publicly announced that John F. Wallace, chief engineer of the canal zone, who sailed for the United States June 16, was going home by order of Secretary Taft for the purpose of a consultation on important matters prior to the sailing

JOHN F. WALLACE.

of the secretary for the Philippines, and that he was not likely to return to the isthmus until his annual report had been written and he had secured a rest.

Since the departure of Mr. Wallace, however, it has been said in influential circles that he does not intend to return to the isthmus to resume his position of chief engineer, but that he has gone home to confer with Secretary Taft on the subject of his resignation. The fact that Mr. Wallace went home accompanied by his wife and his two secretaries seems in some quarters to lend credence to the rumor that he does not intend to return.

DEFIED THE LAW

Bookmakers Operate in Face of Anti-Betting Regulations.

St. Louis, June 20.—Despite Governor Folk's order to the sheriff of St. Louis county directing him to arrest all principals and accessories found violating the anti-betting law, which went into effect last Saturday, no arrests were made yesterday at Delmar racetrack, although six so-called bookmakers did a fair business. A deputy sheriff was present until after the last race. R. L. Johnston, prosecuting attorney of St. Louis county, arrived just before the last race and carefully watched the transactions between the bettors and bookmakers, but did not say what action he might take.

Soldiers Resent Change.

Paris, June 20.—After a record of five and a half centuries in the French army the drum has had to give way to the bugle as being handier, smarter and easier to carry. The minister of war has issued an order to this effect, which has evoked such deep feeling in the army that he may be induced to revoke it.

Marriage of President's Cousin.

Boston, June 20.—Orme Clarke of London and Miss Elfrida Roosevelt, cousin to President Roosevelt, were married at Emmanuel church yesterday afternoon by Bishop William Lawrence, in the presence of a large number of prominent Bostonians.

STATE NEWS NOTES

Incidents and Accidents and Doings of Note Throughout Hoosierdom.

ATTACK ON AN OFFICER

Town Marshal of Montezuma Assailed by a Party of Roughs and Badly Beaten.

Assailants Deliberately Planned the Attack to Get Rid of Officer.

Montezuma, Ind., June 20.—After a series of lawless acts a party of men from across the Wabash river came here and attempted to put George Adams, marshal of this town, out of business. John and William McCarty, Al Mitchell, Ed Wright and William McLaughlin acted as if they courted a collision with the authorities, and they soon attracted the attention of Marshal Adams, who attempted to secure their withdrawal. Unsuspecting of danger, he approached, only to be disarmed and badly beaten, and he was thrown over a low iron fence. Meanwhile McLaughlin had drawn a revolver and was threatening to use it, when Mr. Kay, of the Marion brick plant, kicked the weapon out of his hand. The assailants of the marshal attempted to escape, but he succeeded in capturing one of the McCartys, who was fined a total of \$16.50. Warrants were then issued for the remaining four defendants, and altogether they paid \$80 into the town treasury.

PLUCKY YOUNG GIRL

Bertha Quaintance of Mishawaka Resists Two Burglars.

Mishawaka, Ind., June 20.—Miss Bertha Quaintance, a plucky young girl, proved herself a heroine by her fight with two burglars who were looting the home of her parents.

In a desperate struggle with one of them, who held watches, money and silverware, she was knocked unconscious by blows upon the head and chest, but her plucky fight forced the burglar to surrender some of the booty. The parents, returning home at this juncture, found Miss Quaintance in an unconscious state, with a gold watch grasped in each hand. The intruders had escaped.

Good Corn Weather.

Alexandria, Ind., June 20.—"How fast is corn growing?" a much-discussed question, has been definitely settled in one case by Lawrence Hollowell, an observant farmer, south of the city, who has been making careful measurements. He finds that it is averaging one and a half inches every twenty-four hours, in a few cases doubling that rate, according to the location and soil.

Dangers of Acetylene.

Goshen, Ind., June 20.—While E. B. Haul's barber shop at New Paris was filled with people an acetylene gas pipe burst near the ceiling, filling the room with flame. Two plate glass windows were blown across the street and the mirrors were shattered. All the furniture was practically destroyed. Patrons in the chairs had their hair singed and their beards burned off.

Crestfallen Detectives.

Evansville, Ind., June 20.—Local detectives drove several miles into the country to arrest Fred Williams, wanted on an alleged felony charge. They met Williams near the house where the latter worked, and, not knowing him, told him to guard their rig while they went in search of the fugitive. Williams drove away with the rig and is believed to have escaped into Kentucky.

Released From Heavy Bond.

Vincennes, Ind., June 20.—The motion filed on the first day of the court term, calling for the release of L. A. Meyer, attorney, who shot and killed Colonel A. J. Miss Maud Lefforge, of Windsor, Ill., who has been visiting her aunt, Mrs. Jas. Martin, has returned home.

Miss Gertrude Brown, of Buena Vista, visited her sister, Mrs. Thos. Helman, part of last week.

Curtis Wright, formerly of this neighborhood, but now of Oldenburg, is seriously sick and not expected to live.

If the Editor gets Coon's Corner items mixed a little this week, don't blame him for it, because Oxford has rheumatism in his hands.

What is more disgusting than to hear a fool telling a fool about a fool who fooled a fool.

There is strong talk of a small company organizing and putting down an oil well in this neighborhood. The well will probably be put down on O. P. Freeman's farm.

Our Freeman reporter with a number of other fellows went swimming one night last week in the stone quarry pond on Frank Moore's farm.

The reporter took the lead in the pond and told the other boys that if any of them feared the deep water for fear to remain on the bank while he swam across the pond and located the dangerous places if there should be any.

He also told the boys of a number of lives he had saved by his bravery and skill in rescuing them from the water in some of his fishing expeditions along White river. Well, he actually had the boys believe that he was just about as good as a life-boat, and that they would not fear the center of the great Pacific if he were near them.

After telling the boys of a certain fox chase which happened in the spring of 1887 and of which his dog Ring was in the lead he started out into the water at a lively rate. After he had gotten into the water to a depth of about four inches above where he ties his shoes, he got pale, returned to the bank and drew from his coat pocket a magazine, which he chanced to have and read from its pages aloud to the boys one of James Whitcomb Riley's poems entitled, "Our Old Swimmer Hole" and then meekly confessed to the boys that he got more satisfaction by thus doing than he would had he were the belt for the champion swimmer. He now bathes in a tub of warm water in the back yard, just because the boys laughed at him.

Oxford.

She was a member of Elowah Council No. 71 D. of P. of Falmouth, Ind., whose members went through with a short but impressive ceremony at the grave.

While returning home from the funeral Sunday afternoon, Mr. and Mrs. John Bever, who live one mile north of Glenwood, while driving around a buggy, struck a culvert, south of here, upsetting the buggy and throwing Mrs. Bever out, cutting a gash on her forehead and hurting her side.

The accident took place at a culvert, just north of Garrett Wikoff's house on the county line, one-half mile south of Fairview.

Miss Flora Dickey was buried at the Union church, just west of Fairview. There was an immense crowd that accompanied the friends and relatives to the last resting place of Miss Dickey. The order of Pochontas were present and performed their ceremony which was beautiful and impressive.

Miss Dickey suffered quite a long time but was at all times very patient. She leaves behind a host of mourning friends and relatives. We extend our sincere sympathy.

The weather is hot. There was no preaching at the M. E. church in Glenwood because of Bro. T. J. Anthony preaching Miss Flora Dickey's funeral sermon.

Bro. T. J. Anthony had an accident with an auto just east of town. Nothing serious.

A GRAND BIRTHDAY SURPRISE.

On the Sabbath day which day was the 18th day of June, Sherman Andrews and his good wife went to church as all good people should, and while they engaged in devotional exercises their kind neighbors near the corner of Ninth and George streets had gathered at the Andrews residence and were preparing the most sumptuous feast that ever the writer had the pleasure of participating in. This was the occasion of Mr. Andrews' forty-first birthday. And, by the way, it was also the birthday of the writer. A toast was delivered in a most brilliant spirit by Mr. Al T. Simmes, who lives nearby, and was appreciated highly by all present. Talk about your good cooks, they've got them down on East Ninth street. The day was an occasion of mutual enjoyment and will not fade from the memory of

The report speaks in the most favorable terms of the settlements, and says that similar settlements might be successfully established in the colonies as a means of providing for the surplus agricultural population of the United Kingdom in different parts of the empire, especially in Canada, where according to a letter received from Sir Wilfred Laurier, premier of Canada, the government is prepared to set aside 240,000 acres for this purpose.

AN OLD GAME

Blackmail Attempted on Prominent Columbus Manufacturer.

Columbus, O., June 20.—The Columbus police are mystified by an attempt to blackmail Dr. S. B. Hartman, a millionaire manufacturer. On June 12 Dr. Hartman received an unsigned letter in which it was stated that three persons had entered into an agreement to burn his property by Sunday night unless \$10,000 was deposited in a secluded spot in the outskirts of the city, which was designated in the letter. Arrangements were made Sunday to catch the miscreants, but the scheme fell through. There is no clue to the would-be blackmailers.

Connersville Examiner, Saturday:
Yesterday Harry Boyd was twenty-one
years old and in honor of the anniver-

There were just twenty-one couples

happy celebration was participated in
by them to mark the natal anniversary.

Last Thursday evening, Andrew

to marry Miss Katie Baker at Brook-
